

This job aid will show you how to identify Purchase Orders shipments that are overdue or those that are coming due in the following week. You will be able to see the full list and submit any change requests for multiple shipments one at a time or in mass for approval.

**Step 1.** In iSupplier, click the **Orders** Tab and the **Purchase Order** sub-tab.

**Step 2.** Click on the **Multiple PO Change** button.

Please note that the page now opens in the **Shipments** Tab

**Step 3.** Click on the drop-down list. Then, select the Shipments you want to see.

Overdue Shipments: These are Shipments where the Promised Date is older than today and the shipment has not been received by Nutrien. If there is no promised date, then we look at the Need by Date.

Shipments due in one week: Where the Promised Date (or Need by Date, if there is no Promised date) is within the next 7 days.

Once the list of Purchase Order Shipments Populates, you can then manage these individually or in mass as follows in the next page...

## Submitting individual Changes or Cancellations

Change Multiple Purchase Orders

Views: Overdue Shipments

**Step 4.** You can make individual changes or cancellations to each of your PO Shipments. Don't forget to enter a reason code for each change.

**Note:** you can make as many individual changes and then submit.

**Step 5.** Once you have finished making the changes, press Submit.

Reason Action

Select	PO Number	Line	Shipment	Order Date	Type	Item/Job Description	Location	Promised Date	Ordered	Received	Price	Amount	Line	Supplier Order	Status	Attachments	Split	Reason	Actions
<input type="checkbox"/>	1036008842	1	1	2017-06-22 15:55:51	Goods		PATIENCE LAKE MINESITE			2					Open				
<input type="checkbox"/>	1036008842	2	1	2017-06-22 15:55:51	Goods		PATIENCE LAKE MINESITE	2017-07-19 11:10:47		2					Open			New Date	Change
<input type="checkbox"/>	1036008842	3	1	2017-06-22 15:55:51	Goods		PATIENCE LAKE MINESITE			4					Open				

## Submitting Changes in Mass

**Step 6.** Select the Shipments you want to update. You can select one at a time or Select them all.

**Step 7.** Populate the changes you want applied to all the selected records

**Step 8.** Don't forget to include a reason and the action you are taking. This will apply to all selected records.

**Step 9.** Once you are ready, click on Apply Default Values

**PLEASE NOTE:** If you see there are multiple pages of results, when you click on "Select all", only the first page gets selected. You must go to the next pages and click "Select All" for those records to be selected.

**Step 11.** Unselect any lines with errors so you can submit all other lines and then take a closer look at these ones after.

**Step 12.** Remove the reason and change the Action to be blank as you will not be submitting change requests for these.

Click Apply Again. Once the Change Requests have been submitted, you will see a confirmation on your screen.
