SMARTNUTRITION™ MAP + MST®

Homogeneous Granular Product

SMALL IN SIZE

BIG ON PERFORMANCE

AVAILABILITY • EFFICIENCY • QUALITY • STORAGE • APPLICATION

New Smart Nutrition MAP+MST is the latest, most efficient system for delivering sulfur and phosphate to meet your *crop's needs* and *maximize* production.

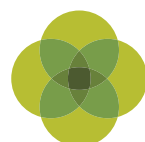

BENEFITS OF SMART NUTRITION MAP + MST:

- Average particle size of 15 micron means quicker sulfur oxidation and earlier availability to the crop
- Reduced salt index delivers more seed row safety
- Decreased risk of sulfur leaching
- High analysis for decreased application rates
- Ideal for bulk blending
- Safe to handle and store
- Limited moisture accumulation
- Enhanced product combining P + S
- Slow release keeps sulfur available throughout the growing season
- Homogenous distribution means granules have consistent nutrient percentages
